**Audio Basics of Adobe Connect**

The **Adobe Connect** meeting environment requires that you understand the basics of using audio. The following tutorials will ensure that you understand the basics of using audio in the **Adobe Connect** meeting environment.

- a. Ensure that your line-in/USB microphone or headset is connected to your computer.
- b. Ensure that your microphone/headset has the appropriate software.
- c. Run the **Audio Setup Wizard** in **Adobe Connect**.
  1. Click the **Meeting** menu.
  2. Click **Audio Setup Wizard**.

**Note that Adobe Presenter automatically tests your microphone.**
