

****Adobe Connect 8****
Creating a “Presenters Only” Area

The **Adobe Connect** meeting environment allows you to create a “presenters only” area. This area is useful when presenters must communicate large amounts of information. The following instructions will enable you to create a “presenters only” area.

To create a “presenters only” area for meetings:

- a. Click the **Meeting** menu. A menu is displayed.
- b. Click the **Enable Presenter Only Area** option. The **Presenter Only Area** is enabled. You will use the pods in the same way that you would use pods in other meetings; however, all communications will be viewed only by presenters.
