Rearranging Pods in Adobe Connect

The **Adobe Connect** meeting environment allows you to rearrange the position of each of the pods. The following instructions will enable you to rearrange the position of each of the pods in the meeting environment.

To rearrange the pods in the meeting environment:

Drag the pods by the title bar of the pods to move the pods to a new position.

To change the size of the pods:

- a. Place the cursor over the right or bottom edge of the pod.
- b. Hold the left mouse button down.
- c. Drag the edge of the pod until the pod is resized.
