Adobe Connect 8
Making Pods Appear and Disappear

The **Adobe Connect** meeting environment allows you to hide and unhide pods. The following instructions will enable you to hide and unhide pods.

To hide a pod:

a. Click the **Pod Options** button in the upper right corner of the pod. A menu displays.
b. Click the **Hide** option on the menu. The pod is removed.

To make a pod visible:

a. Click the **Pods** menu. A menu is displayed.
b. Select the **Share** option from the displayed menu. A submenu is displayed. You should be able to locate the hidden pod.
c. Select the hidden pod to make the pod visible.
