

Powerpoint and Adobe Presenter Installing Adobe Presenter 7.0.7

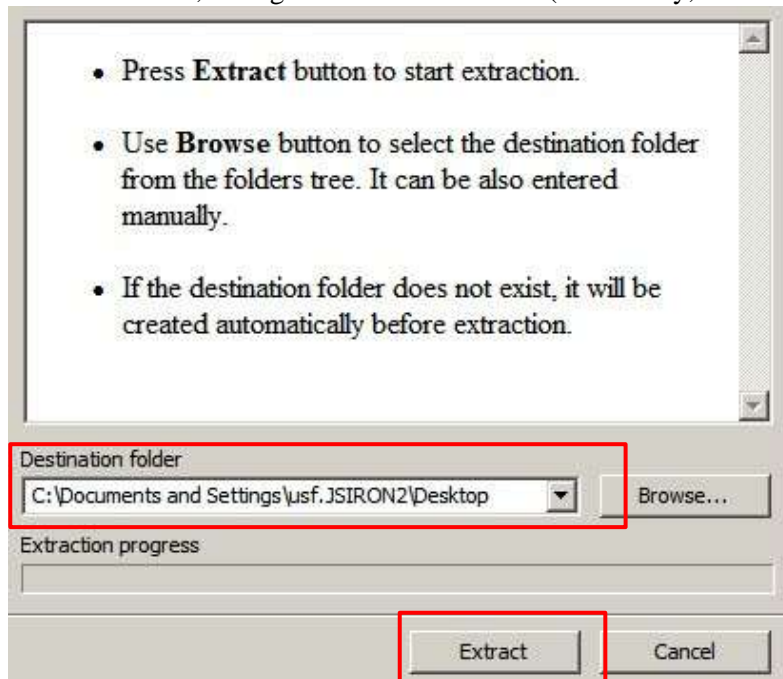

For New Users of Adobe Presenter

1. Navigate to <http://learnit.stfrancis.edu>.
2. Scroll down to the hyperlink, “Using Adobe Presenter to Narrate Powerpoint” and click.
3. Click Download the Adobe Presenter 7 installer, **AdobePresenter7.exe**, so that it saves to your computer.
4. On your computer, navigate to the location where you saved the **AdobePresenter7.exe** file and **double-click to open** the file.

Double-click to open

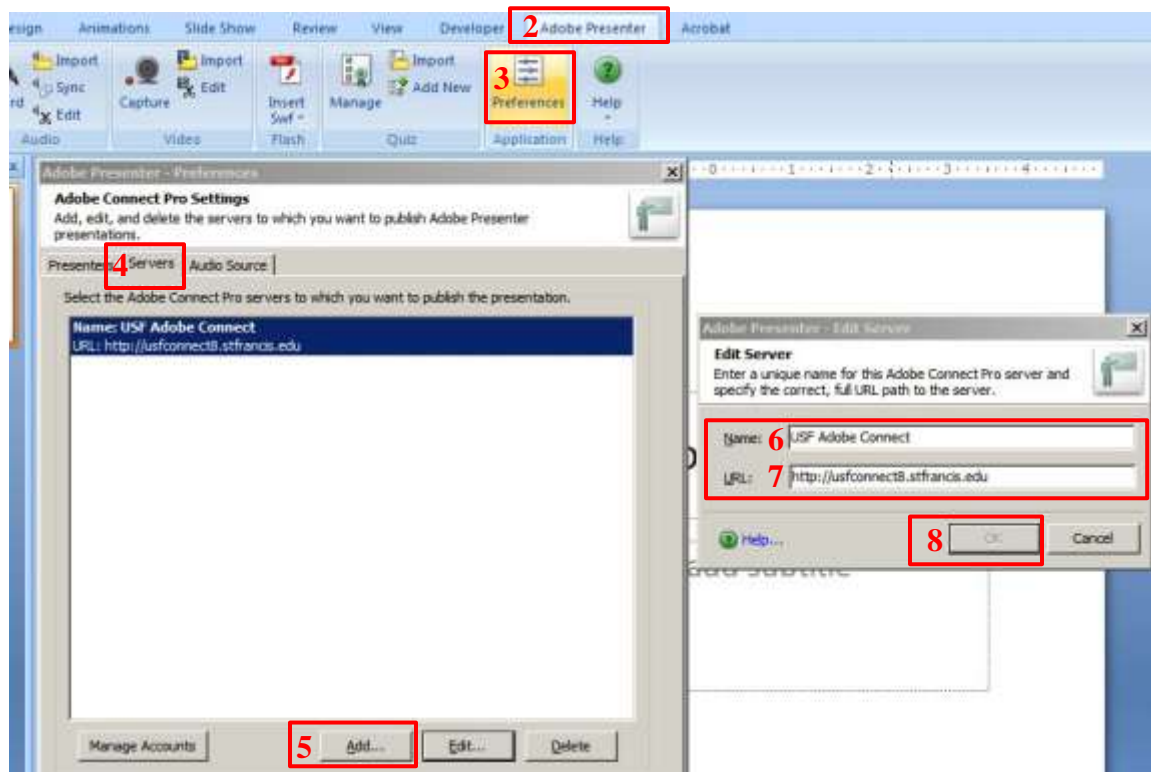

5. Choose **Extract**, noting the destination folder (most likely, the **Desktop** of your computer).

6. Navigate to the location where the **AdobePresenter7 folder** was extracted, and **open** the folder.
7. The **Adobe Presenter Serial Number file** contains the serial number that you will need when you install Adobe Presenter 7.0.7.
8. To install Adobe Presenter 7.0.7, double-click the **presenter.msi** file, and follow the instructions for installation.
9. After installation, continue on to **STEP 4**.

► **Set up the correct path to publish your presentations.**

1. Open **Powerpoint**.
2. Click the **Adobe Presenter** tab.
3. Click the **Preferences** icon.
4. Click the **Servers** tab.
5. Click the **Add** button.
6. Enter Name: **USF Adobe Connect**.
7. Enter URL: **http://usconnect8.stfrancis.edu**.
8. Click **OK**.

You are now ready to publish your Powerpoint presentations with audio using Adobe Presenter.
