

## Ribbons

Below the **Microsoft Office Button** and **Quick Access Toolbar** are a series of **Tabs/Ribbons**.

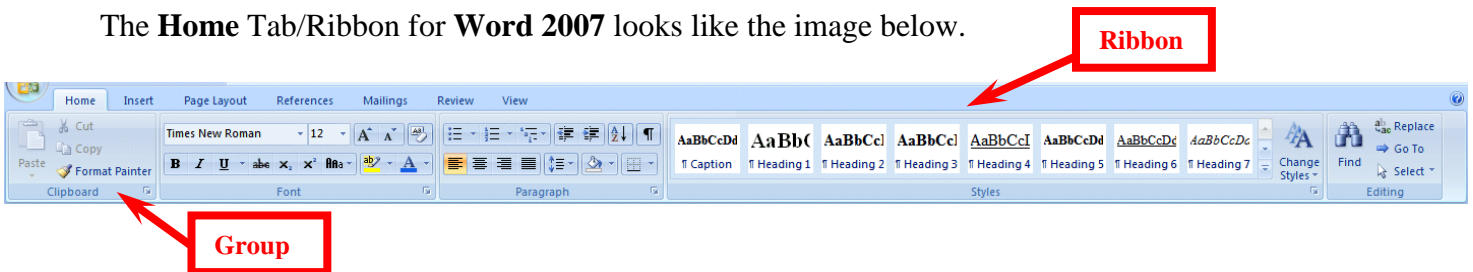

Ribbons stretch across the top of your application screen with features to assist you as you click the Ribbon Tabs.

## Tabs

Tabs are similar to the drop down menu choices in previous versions of Word. All 2007 Office applications begin with the Home tab.

The **Home Tab/Ribbon** for **Word 2007** looks like the image below.

The **Tabs** to the **right** of the **Home Tab/Ribbon** are **tailored** to each **application**.
