

## Students – Using Turnitin to Check for Plagiarism

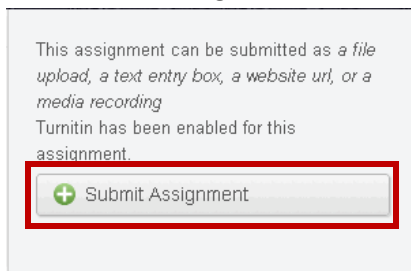

### Submitting an Assignment to Turnitin

- The process for turning in a Turnitin-enabled assignment is the same as submitting any other assignment in Canvas.
- Turnitin does not support file names with special characters, including dashes.
- Students can view the originality report of their rough draft before submitting their final drafts of an assignment; they would simply resubmit their file for the same assignment. The file name of the assignment does not need to be changed when resubmitting the file.
- Turnitin will NOT check a student's original draft against subsequent ones, and instructors will only see the latest version of the file that the student submitted. The system will recognize that the same student is submitting the multiple documents.
- When students submit a Turnitin-enabled assignment they will be required to check a box indicating that they agree with the plagiarism pledge before they can submit the assignment.

A screenshot of a 'Case Study Analysis' submission form. The title is 'Case Study Analysis'. Below the title, it says 'No Content'. There are five tabs: 'File Upload', 'Text Entry', 'Website URL', 'Google Doc', and 'Media'. The 'File Upload' tab is active. The text reads: 'Upload a file, or choose a file you've already uploaded.' Below this, there is a 'File:' label, a 'Choose File' button, and the text 'No file chosen'. There is also a '+ Add Another File' button and a link that says 'Click here to find a file you've already uploaded'. Below the file selection area is a 'Comments:' label and a text input field. At the bottom, there is a checkbox labeled 'This assignment submission is my own, original work', which is circled in red. Below the checkbox are two buttons: 'Submit Assignment' (circled in red) and 'Cancel'.
